

## *Calling In The Wind - Salt of the Sound*

**G5**                      **G(no3)sus4**      **G5**      **G(no3)b13**  
I thought I heard you or was it just the wind  
**Gm**                      **G(no3)sus4**      **G5**      **G(no3)b13**  
I thought I saw it - or was it all a dream?

**Eb**                      **Dm**  
Breathe in; breathe out  
                         **Bb**                      **Dm**  
Release my insecurity of my naivety  
**Eb**              **F**                                      **Gm**  
Your ways... your ways are working deep within

**G5**                      **G(no3)sus4**      **G5**      **G(no3)b13**  
I learnt to listen with every part of me  
**G5**                                      **G(no3)sus4**      **G5**      **G(no3)b13**  
Moving through the broken pieces    colours fading

**Eb**                      **Dm**  
Breathe in; breathe out  
                         **Bb**                                      **Dm**  
Be still, so I can hear again... be still my soul  
**Eb**              **F**                                      **Gm**  
You move... you move to take me deeper still

**Eb**                      **Dm**  
Breathe in; breathe out  
                         **Bb**                                      **Dm**  
Be still, so I can hear again...  
**Eb**              **F**  
You move... you move to take me...  
**Gm**  
Beyond here.... where you call me to go...
